

Joeal Bijoy Thomas

Newark, DE — [✉ Email](#) — [🌐 LinkedIn](#) — [🐙 Github](#) — [🌐 Portfolio](#)

Summary

Data Analyst & Business Analyst with expertise in SQL, Python, and Power BI, delivering end-to-end data pipelines, predictive modeling, and stakeholder-ready dashboards. Proven track record of driving 3–4× subscription growth, reducing CAC by 40%, and improving ROI by 20% through data-driven decision-making, EDA, A/B testing, and ML optimization.

Education

University of Delaware

Aug. 2025 – Present

M.S. in Data Science — Newark, DE Coursework: Regression Analysis, Applied Multivariate Statistics, Database Systems, Big Data Technologies, Algorithms

Indira College of Engineering and Management

Jun. 2020 – Jun. 2024

B.E. in Computer Engineering — Pune, India Coursework: Machine Learning, Deep Learning, NLP, DBMS, Probability & Statistics, Data Visualization

Skills

Languages & Query Analytics, AI & ML

Python, SQL (Complex Queries, CTEs, Window Functions), R, JavaScript
EDA, A/B Testing, Cohort Analysis, Regression, Time-Series Forecasting, Prompt Engineering, Data Cleaning & Wrangling, Statistical Analysis, Churn Modeling, NLP, LLMs, scikit-learn, TensorFlow, PyTorch

BI & Tools

Power BI, Tableau, Advanced Excel, Pandas, NumPy, ARIMA, Prophet, AWS (Fundamentals), N8N, Figma, Git

Methodologies

Agile/Scrum, Requirements Gathering, Stakeholder Management, ETL Pipelines, Process Improvement, KPI Reporting

Experience

University of Delaware

Jan. 2026 – Present

Teaching Assistant (AV Team) — Newark, DE

- Coordinated 20+ technicians for AV operations and university-wide events; managed software upgrades and cross-team logistics.

The Blue Fox Media

Feb. 2025 – Jul. 2025

Data Analyst Intern — Pune, India

- Engineered complex SQL queries and performed data cleaning & transformation on large structured datasets, improving query performance by **40%** and streamlining customer KPI reporting pipelines.
- Conducted advanced EDA and data wrangling in Python (pandas, NumPy) to identify behavioral trends; built Power BI dashboards reducing reporting time by **25%** and contributing to a **20% ROI increase**.
- Collaborated with stakeholders to define requirements, translate findings into actionable business insights, and document process improvements across the analytics workflow.

Dentsu

May 2024 – Nov. 2024

Associate Business Analyst — Baner, India

- Gathered business requirements and partnered with cross-functional stakeholders to build predictive audience models from Google Ads & AppsFlyer behavioral data, driving a **3–4× increase** in Tata Play Binge subscriptions.
- Executed cohort-level A/B testing, before/after analysis, and iterative ML model optimization via Agile sprints, reducing CAC by **30–40%** and improving audience targeting precision by **75%**.
- Automated ETL reporting workflows using JavaScript & Excel, cutting manual reporting effort by **80%** and enabling faster KPI tracking for stakeholders.

Projects

Automated Report Workflow & LLM Chatbot

n8n, Python, LLM, GenAI

- Built an end-to-end ETL pipeline using n8n for automated reporting; integrated an LLM-powered chatbot for conversational querying and extraction of insights from unstructured data using generative AI.

Demand Forecasting for Supply Chain Optimization

Python, Power BI, ARIMA, Prophet

- Developed time-series forecasting models achieving a **15% MAPE improvement**; engineered features from seasonality/trend decomposition to optimize inventory decisions; visualized findings in Power BI.

King County Housing Price Prediction

R, Statistical Modeling, Regression

- Built a multiple linear regression model with log-transformations and backward elimination explaining **82% of price variance**; validated via residual analysis, VIF checks, and data wrangling on 20k+ records.

Indian Food Image Classification

Python, Vision Transformer (ViT), Deep Learning

- Achieved **94% classification accuracy** using Google's ViT model; deployed as a standalone application with calorie recommendations.

Certifications & Publications

Google Data Analytics Professional Certificate (Mar. 2023) — Published **2 peer-reviewed research papers** in Computer Engineering journals.
